## Birthday greeting cards free

By Ty Arthur Although there are many greeting cards available in stores, it can be difficult to find the right card for a particular occasion. If you want a more personalized card that includes your own photos, you can create a greeting card using the program on your computer. Whether for Christmas, birthdays, or any other time of the year, you can be sure to have the perfect card ready for your family or friends. Download and install greeting card creation programs such as Greeting Card Studio or Greeting Card Maker, if you don't already have similar programs on your computer (see the link in Resources). Click File &gt; New. Select the width and height you want to use for the greeting card. Select Portrait or Landscape to set the greeting card orientation. Click Picture &gt; Add New Photo. Select a pre-defined image provided by the program or select a photo stored on your computer. Click the picture and drag it to one end of the greeting card. Select Background and choose a background color to fill in any white area that the image doesn't cover. Click Add Caption. Type the message you want to display on the card such as Happy Birthday! Use the drop-down menu to choose a font and text size. Click OK to place the text on the screen. Click the text and drag it to the location on the card where you want it to be displayed. Add any additional text or images you want on the card. Click File &gt; Print. Choose whether you want the cards folded in half or in quarters. Follow the on-screen instructions if the program indicates you must print on both sides of the paper. You can create birthday greetings for your friends and family either using the e-card website or by creating your own unique card from scratch. When using an e-card website, you can choose from a variety of pre-made cards that you can then personalize with your own custom messages. You can also create your own card using free image creation software and then post it on your own friend's Facebook Timeline. Blue Mountain is an e-card company that lets you email greeting cards to your friends or post your creations on their walls. You can browse through the collection of birthday electronic cards and personalize your choices to suit your needs. By syncing your Facebook account to the Blue Mountain website, you'll get a warning when a friend's birthday approaches. Blue Mountain offers new members a seven-day free trial, after which you'll be required to pay a \$4 monthly fee or a \$20 annual fee (correct as of July 2013). American Greetings is a subscription-based e-card company. You can become a member with a \$4 monthly fee or a \$20 annual fee (correct as of July 2013). Free trials are sometimes available. Cards that can be posted on Facebook F symbol on top of e-card thumbnail. You can post a selected e-card on a friend's wall or your own wall. When you post, you add a private message to make your card unique. Plaxo is an e-card service that lets you schedule e-cards up to one month in advance. You can import your friend's birthday into your Plaxo account to receive reminders as the big day approaches. Each card can personalize with a special message to give it a unique touch. Plaxo offers a 30-day free trial for new members, after which you can subscribe for \$20 a year (correct as of July 2013). Some e-cards in the library are available to send for free. You can design your own unique creations and post them on your friend's Timeline along with optional captions. To create greeting cards from scratch, you can use Paint, download free paint apps like Fresh Paint (available in the Windows Store) or use online services like One Motion's Sketch & Paint (link in Resources). Once you've completed the card, you can save the file to your desktop, then upload it to Facebook Timeline so your friends can see. When you log in to Facebook, you can post your photo to your friend's Timeline by visiting your friend's profile page and clicking the Photos button. You can then select a picture from your computer and add an optional message to make the post more personal. Your friends' privacy settings may differ from yours, so make sure you don't mind your e-card being seen publicly before posting. Read: When you submit a Cross-Stitch-Look Christmas Card, everyone on your list will be touched by the beauty of nostalgia and your craft skills. How to Make a Cross-Stitch-Look Christmas Card What You'll Need: 3-7/8 x 6 inches (42 x 65-squares) White 11-count Aida ClothFine Line Fabric Markers: Gold, Red, Green4-3/4 x 7-inch Parchment Card and EnvelopeOne 5/8-inch Gold Jingle Bell 1. The distinctive look of cross stitching is usually made with needles and threads on fabrics that have weaves made to look like boxes. Instead of using needles and threads, you will use fabric markers to create an X, carefully drawing from one of the square corners diagonally to the opposite angle. Then create another line across the first one, taking care to draw from angle to corner. Practice making X on extra fabric before starting this project. 2. Follow this chart, and with help from adults to get started, create an X in aida fabric to make gold bells. Counting rows of boxes (top and bottom, etc.) on the graph and then on your fabric will help you find your starting place. You will want to be extra careful not to stain any of the ink. Once the bell is over, make a red bow and green border. 3. To attach aida cloth to the parchment card, apply a thin line of glue along the edge of the back of the cloth. Position the cloth in the front center of the card. 4. Using a glue gun, put a small amount of glue on the bell clamp you have drawing on the fabric. Position the golden jingle bells side up and down in the glue. Fuzzy Greeting Cards are a fun and creative way for your kids to express their feelings throughout the year. Find out how to create it on the next page. Learn to make everything you need to pack and send gifts. Read: Give Your Family and Friends Fuzzy Greeting Cards that you and your kids design together.
